Patrick Olusola

AI Generalist | AI Research & Evaluation | Technical Researcher

Lagos, Nigeria | +234 806 817 4015 | itspatolusola@gmail.com |

Professional Profile

Multidisciplinary digital professional with over 7 years of experience spanning digital marketing, comprehensive technical research, cloud engineering, content development and technology. I am great at conducting research, gathering and analyzing information, translating complex findings into clear, actionable insights, and bridging the gap between raw AI capabilities and practical, user-facing applications. Experienced in leveraging digital tools to improve productivity, streamline workflows and support business objectives. I bring strong analytical thinking, written communication, adaptability and an interest in applying generative AI to research, evaluation and real-world problem-solving skills.

Core Skills

- Workflow Optimization
- Technology & Product Research
- Critical Thinking & Problem-Solving
- AI & Cloud: AWS, Amazon Rekognition
- Fact-Checking & Information Verification
- Content Development & Technical Writing
- Data Collection & Analysis
- Market & Industry Research
- AI Output Review & Quality Assessment
- Content Development & Technical Writing
- AI-Assisted Research & Information Synthesis
- Generative AI Application & Prompt Engineering

Career Summary

AI-POWERED IMAGE PROCESSING APPLICATION | INDEPENDENT DEVELOPER | OCT 2026

Key Responsibilities

- Built the backend infrastructure using AWS Lambda and API Gateway, managing seamless data transfer and AI inference.
- Architected and deployed a serverless web application utilizing Amazon Rekognition to perform automated AI analysis on user-uploaded images.
- Engineered secure frontend-to-cloud file handling by implementing AWS S3 pre-signed URLs for frictionless image uploads and metadata JSON retrieval.
- Conducted rigorous technical research to troubleshoot cross-origin resource sharing (CORS) and optimize the API integration between the JavaScript frontend and AWS ecosystem.

DIGITAL MARKETING LEAD | 49TH STREET | APR 2022 – PRESENT

Key Responsibilities

- I create and execute comprehensive digital marketing strategies to increase brand awareness and drive engagement across various digital platforms, achieving a 30% annual increase in brand reach and a 45% increase in user interaction.
- I oversee and train a team of content creators, writers, designers, and social media managers to ensure alignment with the brand's objectives and foster a collaborative work environment, resulting in an improvement in team productivity.

- Performance Monitoring and Analysis: I utilize tools like Google Analytics to measure the effectiveness of campaigns, track KPIs, and generate insights to optimize marketing efforts, which contributed a notable increase in conversion rates.
- I stay updated with the latest digital marketing trends and technologies, integrating innovative approaches to maintain a competitive edge, evidenced by a 15% improvement in campaign performance.

RESEARCH & ANALYTICAL EXPERIENCE

- Translate research findings and complex information into clear, accessible written insights.
- Conduct academic and desk research, synthesizing findings into structured documents and reports.
- Gather, organize and interpret information from multiple sources to support informed decision-making.
- Apply fact-checking and source verification techniques to assess the credibility and accuracy of information.
- Conduct market and industry research to understand trends, competitive landscapes and emerging opportunities.
- Undertake technology and product research, examining digital solutions, industry developments and product capabilities.

TECHNICAL & DIGITAL SKILLS

- ***Creative Tools***: Canva, Adobe Photoshop, Adobe Illustrator.
- ***Technology***: AWS fundamentals, cloud computing, HTML, CSS, JavaScript, Git and GitHub.
- ***AI & Productivity***: Generative AI tools, AI-assisted research, prompt development, content generation and information synthesis.
- ***Research & Analytics***: Market research, data collection, information verification, Google Analytics and Google Sheets.
- ***Digital Marketing***: SEO, SEM, email marketing, social media strategy, content development and campaign analytics.

TECHNICAL PROJECT EXPERIENCE

Serverless Image Processing Pipeline with AI Analysis

- Used Python and Pillow for image manipulation and resizing.
- Designed a serverless image-processing solution using AWS services.
- Applied cloud architecture, automation and technical problem-solving principles.
- Explored the integration of AI-powered image analysis capabilities into the processing pipeline.
- Worked with Amazon S3 and AWS Lambda to implement an automated image-processing workflow.

Education

BACHELOR OF EDUCATION (B.ED.), SOCIAL STUDIES
OBAFEMI AWOLOWO UNIVERSITY, ILE-IFE, NIGERIA.
